Nov. 13, 2019

Congratulations to the winners of the “Cyberstrength” contest, part of the IT Security Office’s National Cybersecurity Awareness Month activities in October.

Kevin Liang, a PhD student in the area of Deep Learning in Electrical and Computer Engineering, and Taylor Scott, a Nurse Practioner in the Anesthesiology-Pain Division, each won an Apple Watch 4.
Thanks to the nearly 4000 Duke faculty, staff and students who participated in the contest and other events throughout October. Please contact us at security@duke.edu [2] if you’d like an ITSO staff member to come speak to your department or unit about ways to protect yourself and your information online.
